PROFESSIONAL SUMMARY

Front-End Developer with 2+ years of experience building scalable, responsive, and component-driven web applications using React, TypeScript, JavaScript, and Redux. Experienced in modernizing legacy codebases, developing accessible and intuitive user interfaces, and integrating REST APIs. Hands-on exposure to backend development with Node.js, Python, and relational databases through full-stack projects. Strong analytical, problem-solving, and cross-functional collaboration skills.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Python
Frontend	React, Next.js, HTML, CSS, jQuery
State Management	Redux, Redux Toolkit, Context API
Styling & UI	Tailwind CSS, Bootstrap, Chakra UI
Backend & APIs	Node.js, Express.js, FastAPI, RESTful APIs, JWT, Pydantic
Database	PostgreSQL, MySQL
Tools	Git, GitHub, Swagger, Postman
AI Tools	Claude, Codex, MCP, Promptfoo, Tool Calls

WORK EXPERIENCE

Frontend Developer

Right Shopping Pvt. Ltd. November 2023 – February 2026

- Built scalable React applications using JavaScript, TypeScript, and Redux with reusable, component-driven architecture.
- Modernized legacy applications by migrating Vanilla JavaScript codebases to React, improving maintainability and scalability.
- Developed key features including product listings, chat modules, blog pages, and UI enhancements.
- Engineered a digital document library featuring advanced filtering, full-text search, text highlighting, and Selection API– powered content sharing.
- Collaborated with cross-functional teams to build responsive, accessible, and performance-optimized user interfaces.

- Maintained cross-browser compatibility and followed best practices for clean, reusable, and maintainable code.

Financial Advisor

SBICAP Securities Ltd. June 2021 – August 2022

- Worked in the equities and derivatives segment of the Indian stock market.
- Managed client relationships and portfolios, with core responsibilities in relationship building and portfolio management.

Process Associate

Sun Knowledge Pvt. Ltd. October 2018 – February 2020

- Worked in the Accounts Receivable and Denial Management department for a US health insurance client.
- Gained experience in the Revenue Cycle Management (RCM) process, including eligibility and benefits verification.

PROJECTS

Sketch-In-Sync

React · TypeScript · Canvas API · Tailwind CSS · Vite · OpenAI Codex

- A collaborative whiteboard application built with React, TypeScript, and HTML Canvas, featuring custom drawing tools for shapes, freehand drawing, text, selection, and scene management. Designed with a modular Strategy Pattern–based architecture to support extensibility, persistence, and real-time collaboration.
- Integrated agentic development workflows using OpenAI Codex for codebase analysis, refactoring, debugging, and iterative feature development.

Live: SketchInSync | *Repo:* GitHub

The Soil Beneath

React · TypeScript · FastAPI · PostgreSQL

- Full-stack e-commerce web application for buying plants and gardening products, with product browsing, authentication, shopping cart, testimonials, and search functionality.

Live: TheSoilBeneath | *Repo:* GitHub

Hypertensive.io

React · HTML · CSS (Chakra UI & Tailwind) · Chart.js · IntroJs

- Open-source application for recording and analysing an individual's blood pressure data over time.
- Built reusable components, functional and responsive data tables, and state management in React.
- Implemented interactive user onboarding and guided product tours using Intro.js, improving feature discoverability and usability.
